

## IS YOUR CHILD ABLE TO SWIM?

Research has shown that 7 percent of the 10-year-old children in Amstelveen are unable to swim. In order to prevent situations that pose a (life-threatening) risk, we want to call on this group in particular to learn how to swim.

### SIGN YOUR CHILD UP!

For children aged between 10 and 12 years, a special swimming programme has been set up in swimming pool De Meerkamp. Simply sign up at: [swimsafe@demeerkamp.nl](mailto:swimsafe@demeerkamp.nl).

### FINANCIAL BARRIER?

The City of Amstelveen believes it's vital that all children are able to swim. Are there any financial or other barriers which prevent your child from attending swimming lessons? Please contact the City of Amstelveen. Together we will find a solution.
